

Ember Coffee Roasters — Company Handbook

About the Company

Ember Coffee Roasters is a specialty coffee company founded in 2020 by Nadia Hassan in the city of Melbourne, Australia. Ember roasts single-origin beans and employs 18 people. The company sells its coffee online and in two Melbourne cafes.

Products

Ember sells three coffee blends. Sunrise is a light roast, priced at 22 dollars per kilogram. Midnight is a dark roast, priced at 25 dollars per kilogram. Ember Signature is a medium roast, priced at 28 dollars per kilogram, and is the only blend available either as whole beans or pre-ground.

Subscriptions

Ember offers a monthly subscription that delivers one kilogram of a chosen blend each month. Subscribers receive a 10 percent discount on every order and free shipping. A subscription can be paused or cancelled at any time.

Returns

Because coffee is perishable, opened bags cannot be returned under any circumstances. Unopened bags may be returned within 7 days of delivery for a full refund.

Customer Support

The Ember support team can be reached by email only. The team aims to respond to every enquiry within 24 hours, including on weekends.
